May 2021 Programs

Email education@cmsny.org to register.

» **Story Time – Pre-registration is required.** ●●

Join us for our preschool literacy and language program. Each week we'll read a different book allowing your child to create real world connections as they familiarize themselves with the alphabet, new vocabulary words, and rhymes. While the Museum building is closed, we are offering in-person programs in our upper parking lot. Each family is required to wear a mask and will receive their own set of materials. This program is free with admission.

» **Science Explorers – Pre-registration is required.** ●●●

Discover the many ways science is all around us in a program that is designed to spark curiosity and create those surprising 'a-ha' moments for children that can last a lifetime. Whether children are experimenting with smells, designing an air powered car, or experimenting with color and dyes, these multi-sensory activities foster curiosity, creativity and problem-solving skills. While the Museum building is closed, we are offering in-person programs in our upper parking lot! Each family is required to wear a mask and will receive their own set of materials. This program is free with admission.

Nature Exploration – Wednesday, May 12th and 26th at 10:30 am. **Pre-registration is required.** ●

Come learn and explore as we make our way through Bog Meadow Brook Nature Trail on the 12th and Pitney Meadows Community Farm on the 26th! Together we'll learn the dos and don'ts of being in nature and go over some of the native plants and animals we may see on our journey. Please come dressed for the weather and practice all social distancing requirements! **This program is sponsored by MVP.**

Homework Helpers – Wednesday, May 5th and 19th from 4:30–5:30 pm. **Pre-registration is required.** ●●●

With our hands-on approach to learning and knowledgeable educators, CMAS can help with those challenging subjects! Each student will get the attention they need to answer questions and work through assignments and projects or even just review a unit. A question or topic may take us into the exhibits or outside to see the problem through! This drop-off program is \$30 /student. Email education@cmsny.org to register.

Beetle and Butterfly Gardening Club – Saturdays at 10:30 am. **Pre-registration is required.** ●●●

Get your hands dirty in this amazing program that will have us gardening, learning about plants, and investigating pollinators. In Spring, young minds will discover the important role plants play in our lives as we manage our garden space and learn what it takes to have a successful garden. In Summer we'll focus on pollinators when we get a few ladybugs and butterflies to watch grow and then release to help pollinate our garden. As the days start to drift into Fall, we'll get ready to harvest our garden to make food and other fun experiments. This club will meet Saturdays at 10:30 am. Every attendee will be inducted into the club and will receive a certificate at the end of each season. Email education@cmsny.org to register.

CMAS IS OPEN – Tuesdays, Thursdays, Fridays, and Saturdays from 9:00 am–12:00 pm. **Tickets must be purchased in advance due to limited capacity.** ●

After over a year of being closed, we are so excited to be able to welcome guests back into our building! To pre-purchase your admission tickets, visit [CMAS Admission Tickets!](#)
