October 2021 Programs

Weather permitting, all in-person programs are outside and socially distanced.

» **Story Time** ●●

Join us for our preschool literacy and language program. Each week we'll read a different book allowing your child to make real world connections as they familiarize themselves with the alphabet, new vocabulary words, and rhymes.

» **Science Explorers** ●●●

Discover the many ways science is all around us in a program that is designed to spark curiosity and create those surprising 'a-ha' moments for children that can last a lifetime. Whether children are experimenting with smells, designing an air powered car, or experimenting with color and dyes, these hands-on activities foster curiosity, creativity and problem-solving skills. **This program is sponsored by National Grid.**

» **Art Adventures** ●●●

Step into this creative space where children and families can make art together. Participate in a multi-sensory art project each week that encourages self-expression and experimentation with different art mediums. Art projects also help to develop fine motor skills, color identification, and communication skills.

» **Nature Exploration** – Thursday, October 7th and 21st at 10:30 am. ●

Come learn and explore as we make our way through Saratoga's nature trail! Together we'll learn the dos and don'ts of being in nature and go over some of the native plants and animals we may see on our journey. Please come dressed for the weather and practice all social distancing requirements! **This program is sponsored by MVP.**

★ **Science Crew** – Monday, October 18th and 25th from 2:00 pm – 3:00 pm. Pre-registration is required ●●●

Join us for a 5 week science course that focuses on using scientific inquiry and hands-on experimentation to engage with STEAM content. Each week students are introduced to a variety of science, technology, engineering, art, and math concepts that promote students' self-efficacy and belief in their ability to be a learner. Great for homeschool kids! Science Crew is \$60/student for all 5 weeks. Email education@cmssny.org or call 518-584-5540 to register.

★ **Caffè Lena: On the Road with Andy Cohen** - Thursday, October 21st 10:00 pm - 11:00 pm. ●

Come make music with us! Take in the musical talents of Andy Cohen during an engaging and interactive children's show as we proudly host Caffè Lena's **On The Road** program.

★ **Science Day!** – Thursday, October 21st 1:00 pm – 2:00 pm. Pre-registration is required. ●●●

Come explore the world of engineering at CMAS! Students will use the Engineering Design Process to complete different building challenges. They'll think like engineers and work as a team to solve the problem at hand. Science Day is \$15/student. Great for homeschool kids! Email education@cmssny.org or call 518-584-5540 to register.

★ **Pumpkin Party!**– Saturday, October 30th at 10:30 am. ●

Get ready for a Pumpkin Party at CMAS! Wear your Halloween costume and join us for pumpkin painting, spooky art projects, and more! Go on a scavenger hunt through the Museum and collect your prize before you leave.
