About Virtual Programming

Virtual programs are a way for the Museum to stay connected to the community while our doors are closed as we prepare to move to the Lincoln Baths. We are looking for ways that we can host these programs in-person, but until then we want to be able to offer what we can in the meantime. Tune in to see us on Facebook when we broadcast these programs live at 10:30am. We'd love to see you there!

Story Time ● ●

Join us for our preschool literacy and language program. Each week we'll read a different book allowing your child to create real world connections as they familiarize themselves with the alphabet, new vocabulary words, and rhymes.

What are we learning: Early Literacy, Critical Thinking Skills, Socio-emotional Skills

Science Explorers ● ● ●

Discover the many ways science is all around us in a program that is designed to spark curiosity and create those surprising "a-ha" moments for children that can last a lifetime. Whether children are experimenting with smells, designing an air powered car, or experimenting with color and dyes, these multi-sensory activities foster curiosity, creativity and problem-solving skills.

This program is sponsored by National Grid.

What are we learning: Cognitive Development, Early Science and Early Math Skills, Fine Motor Skills, Focus, Perseverance, Problem Solving Skills, Critical Thinking Skills

Where learning and play
go hand in hand.
